Eliani – The Story

Eliani started in the late 1990s as a result of the association of two friends. This association was based on their common passion and knowledge of pizzerias and bakeries; they brought together combined experience to produce a range of mixers renowned for both design and function.

Eliani has become the number one choice for pizzaioli who demand the most professional of mixers. The Eliani concept is simple: provide the right machine for the customer's ease and comfort. Quality, design, innovation and reliability of equipment are the foundations that the company has been built upon.

Because great pizza needs a great mixer

We love our customers who help us by spreading the name of Eliani via word of mouth. There is no better marketing than through satisfied customers. Eliani produce spiral mixers, fork mixers, double arm mixers, dough portioners and dough rounding machines.

Eliani's dough mixers and rounders are recommended by some of the best chefs in the world because of their thoughtful and innovative design – the mixers are handmade and there are a variety of machines suitable for dough up to 100% hydration. Eliani products are a pizza chef's best friend and the perfect tools to obtain perfect dough.

Which mixer do I need?

Flour Capacity	Hydration	Model you will need
300g - 2.5kg	60% - 100%	ES6-2V VAR

Floor Standing Mixers

Eliani Painted Spiral Steel Mixers

Fixed Bowl & Spiral Shaft

Features

These mixers are high performance kneading machines, designed to meet the requirements of the best chefs, giving them the top-quality performance they need. These machines are ideal for 60-100% hydration. A robust and reliable mixer characterised by a transmission in a reinforced double chain. The hook, with a special design, has a powerful motor of 2.5hp and standard retractable stabilising castors.

A spiral mixer for customers that want the high performance of a professional mixer with batches of perfectly mixed dough. 2 sizes available – from 40-100% hydration. 3 versions are available for each size.

ES35-2V VAR	1kg	17kg	43lt	50 x 82 x 94cm	150kg

Pro-Line Mixers

Eliani Painted Spiral Steel Mixers

Fixed Bowl & Spiral Shaft

Features

A fast spiral mixer that permits production of the best quality dough in shorter times compared to other machines. Built with a strong and reliable mechanical structure, it is ideal for bakeries and pizzerias working well with hard or soft doughs. Belt transmission avoids high noise levels and improves reliability. With 2 mixing speeds, two timers and reinforced spiral. Two motors each for the bowl and the spiral ensure minimum stress and less heat applied to the dough. Automated 2 speed via digital timers allows programming for seamless mixing.

Model

ES60-2V
ES80-2V

Available in grey and red

ES100-2V
ES160-2V

Available in grey and red

Details

- Painted steel structure with distinctive red top
